## Interior Design: One Day Workshops

### **NEW! Recipe for an Afternoon Makeover**

First pull all of the “ingredients” out of the room. Look over the empty space. Now begin to create: Add an equal amount of balance and proportion, mix gently with texture and rhythm, and beat with gentle harmony. Next add a pinch of color to taste. Then finish it off with a personal touch of authenticity. Now sit down with a cup of tea to enjoy. Join us as we learn how to follow the simple recipe for a one day makeover to refresh our homes and our souls for the New Year. When we finish, you will have the ingredients to create your own redesign!

Tuesday, January 13th 9:00 a.m.-12:00 p.m. Tuition: \$100

### **Color it Chartreuse: Bringing Color into Your Life**

Are you "color stuck"? Are you afraid of painting each room a different color so you just leave everything "white"? Join us this evening as we become more knowledgeable and comfortable with color in our homes. Hear what the professional designers have to say about color. Come to better understand the language and mood of color. Discover several simple techniques that will help you choose color. This class will include an informative powerpoint presentation, a number of handouts, resource books to peruse, and "freebies".

**NEW! Eco-Deco: Creating an Eco-Friendly Home**

Our homes define us, support us, shelter us and protect us. Or do they? Due to a struggling real estate market, home improvement is the new American pastime. Whether you are rehabbing, redecorating, or just de-cluttering, it is important that you begin to create eco-friendly living spaces for your family. This class will introduce you to practical ways, new technologies, and cost-free solutions to make your home safer for your family and your world. Learn how to live healthier, conserve energy and make a positive impact on the earth. Join us in support of a healthier world.

**NEW! Renovate, Redecorate: What the Pro's Know!**

Today, more than ever before, more houses are being renovated than built from scratch. And with the environmental crises awakening us to the fragility of our world, more and better products are available to us than ever before. Join us this evening to get a glimpse into the "New World" of renovating as seen through the eyes of the Pro's. What about the products used for flooring, countertops, paint, insulation, and lighting? Are they safe for our family, environmentally friendly, easy to install, affordable? Attend this class for information, product selection, resources and "freebies;" and then get going on your projects this Spring.
